Adjectives others use to describe you: Mature, hard-working, got-her-act-together, sweet girl, talented, takes initiative, witty

Unique Areas of Interest or Involvement/Favorite Subjects: Making music with the family; reading and analyzing Jane Austen; performing and reading Shakespeare; Harry Potter; obsessively cleaning; cooking; quoting songs, movies and books; playing the guitar and the piano; avid reader of anything from the daily news to political essays; writing outside of the classroom.

College/Career Plans and/or Goals: I plan to apply to Texas A&M at College Station, Trinity University, UNT, UT, and UD. I intend to major in English lit, creative writing, history, and/or economics. I'd like to attend graduate school later on, to do research for the future books I will write.

Specific praise received from teachers: Due to my seven years of CDA attendance, I would hope there are many teachers who have noticed growth in my scholarly ability under their tutelage. Out of any teacher, Mrs. Marshall knows how far I've come, from personal experience and time with me. And thanks to personal initiative and careful guidance, I have grown in other subjects as well, including physics, apologetics, debate and theater.
